INDEX TO VOLUME VI

A

Adrenal cortex, heparin and the, 294
Agglutination, reversible, and haemolysis, 211
ALLISON, A. C., and MORTON, J. A.: Species specificity in the inhibition of antiglobulin sera, 314
Anaemia, familial non-spherocytic haemolytic, 219
ANDERSON, K., HUGHES, J. A., and KNOX, R.: Use and abuse of Jungmann's method for liquefaction of tuberculous sputa, 124
Aneurysms of ascending aorta due to medial degeneration, 299
Antibiotic sensitivity, adaptation of filter paper method, 243
— — simple method for determination of, 243
Antibody anti-k blood group, 52
— formation in myelomatosis, 62
Anticoagulant, circulating, haemorrhagic diathesis due to, 30
Antiglobulin sera, species specificity in inhibition of, 314
ANTONIADES, H. N.: New liver function turbidity test, 290
Aorta, ascending, aneurysms of, associated with arachnodactyly, 299
— case surviving six months after traumatic rupture of, 145
Arachnodactyly, aneurysms of ascending aorta associated with, 299
ARMITAGE, P., *see* INGRAM, G. I. C., BIGGS, R., and ARMITAGE, P.
Association of Clinical Pathologists: 50th General Meeting, 161
— — — — 51st General Meeting, 326
Auto-immune haemolytic disease, 208

B

Bacitracin, use for identifying group A haemolytic streptococci, 224
Bacteria, gelatine-liquefying, simplified plate method for detecting, 246
Barbiturate intoxication, study by ultra-violet spectrophotometric technique, 78
BARTELS, H. L. J. M., *see* VAN CREVELD, S., PAULSSEN, M. M. P., BARTELS, H. L. J. M., and VONK, R.
BASSIOUNI, M.: Estimation of heparin in blood, 39
BEATTIE, C. P., *see* VALENTINE, J. C., LANE, W. F., BEATTIE, C. P., and BEVERLEY, J. K. A.
BEVERLEY, J. K. A., *see* VALENTINE, J. C., LANE, W. F., BEATTIE, C. P., and BEVERLEY, J. K. A.
BIGGS, R., and DOUGLAS, A. S.: Measurement of prothrombin in plasma; case of prothrombin deficiency, 15
— — Thromboplastin generation test, 23
— *see* INGRAM, G. I. C., BIGGS, R., and ARMITAGE, P.
— *see* MACFARLANE, R. G., and BIGGS, R.
Bilirubin, estimation in serum, 173
— values of cord blood in heterospecific pregnancy, 215
Biopsy of lung in mitral stenosis, 84
BLACKBURN, E. K., *see* MARTEN, R. H., and BLACKBURN, E. K.
Blood and cerebrospinal fluid urea levels after death, 110
— bank, refrigerator for, 324
— coagulation and the clinical pathologist (Editorial), 1
— determination of esterified fatty acids and total fatty acids in, 158
— estimation of heparin in, 39
— group antibody anti-k, 52
— peripheral, production of erythrophagocytosis in, 208
— platelets, transfusion of, in thrombocytopenia, 41
Bloods, identification of human and animal, 314
BOLTON, F. G., and YOUNG, R. V.: Observations on cases of thrombocytopenic purpura due to quinine, sulphamezathine, and quinidine, 320
Bone, crystalline inorganic component of, 304
— tissue, localization of porphyrins in, 135
Book Reviews:
Bodian, M., ed.: *Fibrocystic Disease of the Pancreas*, 1953, 168
Cole, W. H., ed.: *Some Conjugated Proteins—A Symposium*, 332

COLLARD, P. J., and MANN, P. G.: Slide culture as means of appraising streptomycin sensitivity of tubercle bacilli in sputum, 266
Colony counter electrical, 91
CONWAY, H.: Production of erythrophagocytosis in peripheral blood: studies in auto-immune haemolytic disease and canine transfusion reactions with some experimental observations, 208
Cord blood, bilirubin values in heterospecific pregnancy, 215
Corticoids, reducing, in urine, 190
Corticosteroids, determination in urine, 74
Corticosterone-like substances, determination in urine, 74
CRAWFORD, H.: Third example of the blood group antibody anti-k, 52
Creatinine in serum, estimation of, 201
Crystalline inorganic component of bone in Paget's disease, 304

D

DACIE, J. V., *see* DOUGLAS, A. S., and DACIE, J. V.
— *see* HURLEY, T. H., and DACIE, J. V.
— *see* PITNEY, W. R., and DACIE, J. V.
DANGERFIELD, W. G., and FINLAYSON, R.: Estimation of bilirubin in serum, 173
DAVIS, L. R., and SMITH, M. J. H.: Difficulties in use of ethylenediamine tetra-acetic acid (E.D.T.A.) in determining calcium in serum, 198
DOUGLAS, A. S., and DACIE, J. V.: Incidence and significance of iron-containing granules in human erythrocytes and their precursors, 307
— *see* BIGGS, R., and DOUGLAS, A. S.
DURANT, J. A., *see* HARKNESS, J., and DURANT, J. A.

E

E.D.T.A., use in determination of serum calcium, 198
Electrical colony counter, 91
Electrophoresis, filter paper, of serum and other proteins, 183
— staining of proteins and lipoids after, 282
Encephalopathy following administration of streptomycin and P.A.S., 128
ENGFELDT, B., *see* PAUL K. G., ENGSTROM, A., and ENGFELDT, B.
ENGSTROM, A., *see* PAUL, K. G., ENGSTROM, A., and ENGFELDT, B.
ENTICKNAP, J. B.: Lung biopsy in mitral stenosis, 84
Erythrocytes, human, iron-containing granules in, 307
Erythrophagocytosis in peripheral blood, 208
Erythropoietic disorders, serum iron level in, 105
Esterified fatty acids, determination of, 158
Ethylenediamine tetra-acetic acid in determination of serum calcium 198
EVANS, R. W.: Rhabdomyosarcoma of breast, 140
Extractor, continuous liquid-liquid, 195

F

Factor V activity in human oxalated plasma, 34
Familial non-spherocytic haemolytic anaemia, 219
Fatty acids, esterified, determination of, 158
Fertility index derived from semen analysis, 232
Filter paper electrophoresis of serum and other proteins, 183
— — method for determination of antibiotic sensitivity, 243
— — staining of proteins and lipoids on, 282
FINLAYSON, R., *see* DANGERFIELD, W. G., and FINLAYSON, R.

Thrombin generation in recalcified plasma, 9
— — test, 3
— — — in investigation of haemophilia, 9
Thrombocytopenia, thrombin generation test in, 3
— transfusion of blood platelets in, 41
Thrombocytopenic purpura due to quinine, sulphamezathine, and quinidine, 320
Thrombopathia, transfusion of blood platelets in, 41
Thromboplastin generation test, 23
Thrombosis, incipient, laboratory tests for, 46
Tissue sections, metachromasia after treatment with sulphuric acid, 239
TOMPSETT, S. L.: Investigation into the determination of corticosteroids in urine. I, Determination of corticosterone-like substances, 74
Toxoplasmosis, congenital, proven case of, 253
Transfusion of blood platelets in thrombocytopenia, 41
— reactions, canine, 208
Treponema immobilization test, 227
Trypsinized red cells, haemolysis and reversible agglutination of, 211
Tubercle bacilli, concentration, microculture, and sensitivity testing of, 261
— — fluorescence microscopy for, 273
— — isoniazid resistance of, 118
— — slide culture and streptomycin sensitivity of, 266
Tuberculosis as necropsy room hazard, 132
— Middlebrook-Dubos haemagglutination test in, 64
Tuberculous meningitis, bacteriological diagnosis of, 241
— sputa, Jungmann's method for liquefaction of, 124
Turbidity test for liver function, 290

U

Urea levels in blood and cerebrospinal fluid after death, 110
Urinary casts, simple technique for demonstration of, 251
Urine, determination of corticosteroids in, 74
— — — reducing corticoids in, 190
— vitamin B_{12} concentrations of, 54

INDEX TO ABSTRACTS

Entries followed by the letter P in brackets (P) refer to the reports of the Scientific Meetings of the Association of Clinical Pathologists.

A

Acholuric jaundice, bone marrow changes in (P), 166
Acidosis, infantile renal (P), 161
A.C.T.H. and adrenaline tests in burned patients (P), 329
— cyclical thrombocytopenia treated with (P), 166
Adenomatoid tumours of epididymis, 96
Adrenaline tests in burned patients (P), 329
Alkali loading, massive, renal response to (P), 331
Angiomatous malformations, role in production of intracerebral haematomas, 97
Antibiotics, interference between (P), 162
Anticoagulant in acquired haemophilia-like disease (P), 166
Arthritis, rheumatoid, liver function tests in (P), 331
Ascorbic acid relationship, pituitary-plasma (P), 330
Aureomycin in treatment of zoster, 171

B

Benemid, effect on uric acid excretion (P), 161
Bladder neck, obstruction at (P), 164
Blood cells, phase contrast appearances of (P), 165
Bone marrow changes in acholuric jaundice (P), 166
— — culture *in vitro* in fluid media (P), 166
— — embolism, 98
Breast, true primary sarcomata of, 97
Bromide, passage from blood to cerebrospinal fluid in tuberculous meningitis (P), 330
Burned patients, A.C.T.H. and adrenaline tests in (P), 329

C

Carcinoma, haemolytic jaundice with, 172
Chloramphenicol, control of pertussis with, 171

Chloramphenicol, in treatment of zoster, 171
— intrathecal, in staphylococcal meningitis, 94
Cholinesterase, serum, colorimetric determination of (P), 331
Christmas disease, diagnosis and treatment of (P), 328
Coagulase, staphylococcal, mode of action of (P), 328
Colitis cystica profunda (P), 326
— ulcerative, pathogenesis of, 98
Colon, cystic enlargement of mucous glands of (P), 326
Colorimetric determination of serum cholinesterase (P), 331
Cortisone, cyclical thrombocytopenia treated with (P), 166
Coxsackie virus infections, laboratory diagnosis of, 93
— viruses, group A, 93
— — recovery from cases of poliomyelitis, 94
Creatine examinations in muscle disorders (P), 161

D

Diabetic coma, metabolic study of, 95
— — renal function during and after, 171
2: 6-Diaminopurine, effects in neoplastic disease, 172
Dicoumarol, effect of vitamin-K on hypoprothrombinaemia induced by, 172

E

Electrolyte excretion, diurnal variations in, 95
— metabolism in hepatic cirrhosis, 95
Embolism, bone-marrow, 98
Epididymis, adenomatoid tumours of, 96
— primary neoplasms of, 96
Epiloia, structural features of (P), 327
Erythrocytic and granulocytic systems, myelosis involving (P), 328

F

Fat metabolism, physiology of (P), 161
Fertility index derived from semen analysis (P), 167
Foetal structures, persistence in pyelonephritic kidney (P), 164
Folic acid antagonists, effects in neoplastic disease, 172

G

Giant-cell xanthomatous granulomata of tendons, 97
Glomerular filtration rate, thiosulphate clearance as measure of (P), 330
Glomus tumours of stomach, 97
Granulocytic and erythrocytic systems, myelosis involving (P), 328
Granulomatosis, haemolytic jaundice with, 172

H

Haematomas, intracerebral, role of angiomatous malformations in production of, 97
Haemolytic jaundice in malignant disease, 172
Haemophilia-like disease, action of circulating anticoagulant in (P), 166
Hamartoma of hypothalamus associated with pubertas praecox, 97
Hepatic cirrhosis, electrolyte metabolism in, 95
Hepatitis, pathology of, 98
Herpes zoster, aureomycin and chloramphenicol in, 171
Hypertension, naturally occurring " experiment " in cases of (P), 326
Hypoprothrombinaemia induced by dicoumarol and tromexan, effect of vitamin-K, 172
Hypothalamus, hamartoma of, associated with pubertas praecox, 97

I

Infantile renal acidosis (P), 161
Intestinal spirochaetosis, syndrome associated with (P), 327
Intracerebral haematomas, role of angiomatous malformations in production of, 97
Intracranial tumours with extracranial metastases, 96

J

Jaundice, acholuric, bone marrow changes in (P), 166
— haemolytic, in malignant disease, 172

K

Kidney, pyelonephritic, persistence of foetal structures in (P), 164

L

L.E. cell and its significance, 96
Leukaemia, acute, effects of folic acid antagonists and 2: 6-Diaminopurine in, 172
— haemolytic jaundice with, 172
Leuco-encephalitis, acute haemorrhagic (P), 163
" Leydig " cell tumours of ovary (P), 164
Liver, cirrhosis, electrolyte metabolism in, 95
— function tests in rheumatoid arthritis (P), 331

M

Malignant disease, haemolytic jaundice in, 172
Marrow cells, phase contrast appearances of (P), 165
Melanomas, malignant, and naevi (P), 326
Meningitis, staphylococcal, intrathecal chloramphenicol in, 94
— tuberculous, passage of bromide from blood to cerebrospinal fluid in (P), 330
Microscopy, phase-contrast, in haematology (P), 165
Muscle biopsy, technique of (P), 163
— disorders, creatine examinations in (P), 161
M. tuberculosis, culture and sensitivity testing of (P), 163
Myelocytes in peripheral blood in pregnancy and puerperium (P), 166
Myelomata, pathology of, 97
Myelomatosis, serum flocculation tests and sternal puncture in diagnosis of (P), 329
Myelosis involving the granulocytic and erythrocytic systems (P), 328

N

Naevi and malignant melanomas (P), 326
Neoplastic disease, effects of folic acid antagonists and 2: 6-Diaminopurine in, 172

O

Osteomalacia in steatorrhoea (P), 162
Ovary, " Sertoli " and " Leydig " cell tumours of (P), 164

P

Pertussis, control with chloramphenicol, 171
— in day-nursery contacts, 171
— morbid histology of, 98
Phase contrast appearances of normal blood and marrow cells (P), 165
Phthalylsulphacetamide, clinico-pathological trial of (P), 167
Pituitary-plasma ascorbic acid relationship (P), 330
Plasma cell tumours, pathology of, 97
Pleurodynia, epidemic, 93
Poliomyelitis in Ontario, 94
— laboratory investigation of (P), 328
— recovery of Coxsackie viruses from cases of, 94
Post-operative retention of salt and water (P), 330
Potassium metabolism in diabetic coma, 95
Pregnancy, myelocytes in peripheral blood in (P), 166
Puerperium, myelocytes in peripheral blood in (P), 166
Pubertas praecox, hamartoma of hypothalamus associated with, 97
Pyelonephritic kidney, persistence of foetal structures in (P), 164

R

Renal acidosis, infantile (P), 161
— function during and after diabetic coma, 171
— response to massive alkali loading (P), 331
Rheumatoid arthritis, liver function tests in (P), 331

S

Salt and water, post-operative retention of (P), 330
Sarcomata, true primary, of breast, 97
Semen analysis, fertility index derived from (P), 167
" Sertoli " and " Leydig " cell tumours of ovary (P), 164
Serum cholinesterase, colorimetric determination of (P), 331
— flocculation tests in diagnosis of myelomatosis (P), 329
Sickle cell trait, distribution of (P), 329
Siderosis, transfusion (P), 165
Spirochaetosis, intestinal, syndrome associated with (P), 327
Staphylococcal coagulase, mode of action of (P), 328
— meningitis, intrathecal chloramphenicol in, 94
Steatorrhoea, osteomalacia in (P), 162
Sternal puncture in diagnosis of myelomatosis (P), 329
Stomach, glomus tumours of, 97
Syndrome associated with intestinal spirochaetosis (P), 327

T

Tendons, multiple giant-cell xanthomatous granulomata of, 97
Testes, malignant tumours of, 96
Test meal, fallacies of (P), 331
Thiosulphate clearance as measure of glomerular filtration rate (P), 330
Thrombocytopenia, cyclical, treated with A.C.T.H. and cortisone (P), 166

Toxoplasma infection in English children, 171
Toxoplasmin intradermal antigen, 171
Toxoplasmosis, congenital (P), 164
Transfusion errors, causes of (P), 165
— siderosis (P), 165
Tromexan, effect of vitamin-K on hypoprothrombinaemia induced by, 172
Tubercle bacilli, culture and sensitivity testing of (P), 163
Tuberculous meningitis, passage of bromide from blood to cerebrospinal fluid in (P), 330
Tumours, intracranial, with extracranial metastases, 96

U

Ulcerative colitis, pathogenesis of, 98
Uric acid excretion, effect of " benemid " on (P), 161

V

Virus infections, Coxsackie, laboratory diagnosis of, 93
Viruses, Coxsackie, recovery from cases of poliomyelitis, 94
— group A Coxsackie, 93
Vitamin-K, effect on hypoprothrombinaemia induced by dicoumarol and tromexan, 172

W

Water and salt, post-operative retention of (P), 330

X

Xanthomatous granuloma of tendons, multiple giant-cell, 97
